Dear Mobile Food Service Operator:

This letter is to inform you that requirements to operate your mobile food service operation will change for the next licensing period beginning March 1, 2013. Please note the following changes as they will be enforced next licensing period for all mobile units.

Mobile food service units cold holding time-temperature control for safety (TCS) foods are required to have a mechanical refrigeration unit that will keep internal food temperatures at 41° Fahrenheit or below. Power for these units may be supplied by generators, car batteries or marine batteries. These commercial grade electric powered coolers can be found via the internet or at professional restaurant equipment outlets. Ice chests are prohibited except for limited circumstances, such as for the sale of commercially pre-packaged retail foods at time limited events such as farmers markets. Commercial or NSF grade refrigerators must be used. Refrigerators must bear the NSF stamp or equivalent as shown below. You may not use equipment designed for home use (domestic refrigerators for home use are prohibited).

Questions about this refrigeration requirement can be answered by calling Summit County Public Health at (330) 812-3800. Thank you for your cooperation with this requirement.
